INN-FORM Plus v6.5

Hotel Call Accounting Hardware:

The INN-FORM PLUS hotel call accounting system is the "Big Brother" to the INN-FORM XL and is designed to interface to most Property Management Systems (PMS) as well as store up to 60,000 calls in its own memory for PMS backup and customized reporting.

The INN-FORM Plus allows managers to allocate telecom expenses by specific cost centers, such as restaurants or gift shops. It interfaces to all major hotel PBX systems and comes with a two-year manufacturer's warranty.

Product Features:

- Automatic call posting to the Property Management System and internal storage of up to 60,000 calls
- Real-time call costing and reporting
- Trunk reporting capabilities
- Custom markups, surcharges, and grace periods for different call types
- Easy install and use (rates and settings are set before delivery)
- Management password protection
- Department and cost center options
- Flexible property management system interfaces (HX/HB/MR)
- Compatible with all major hotel PBX systems
- Includes customized tariff data from AT&T, Verizon, or Sprint
- Threshold billing for 8xx and local calls
- 911, 311, and credit limit alarms
- Change/add guest administrative extensions
- Parallel printer capabilities
- Business features, including department allocation (gift shop/restaurant)
- 30 minutes free technical support
- 2-year manufacturer's warranty

Customer Recommendations:

"For over 12 years, the INN-FORM Plus has provided a steady revenue stream from in-room calls. By having the INN-FORM Plus installed, it allows me to post in-room calls to my MICROS Opera Property Management System."

- Crowne Plaza

"The INN-FORM Plus is very easy and inexpensive to support and maintain. The automatic reporting features are extensive and the dial-in diagnostics capabilities are second to none. I would recommend any of the TEL product line, and look forward to continuing working with TEL."

- Eric Ryan Corporation

Basic Installation & Setup:
