# WIN-SENSE 32 v3.0

**Business Call Accounting Software:**

The WIN-SENSE 32 is a popular call accounting system for businesses, assisted living centers, RV parks, hospitals, schools, and government agencies. Used by the U.S. Coast Guard, banks, law firms, and non-profit organization, the WIN-SENSE 32 provides accurate and reliable call accounting for any organization.

With the WIN-SENSE 32, businesses can generate revenue by reselling phone calls and improving employee productivity. Businesses can also cut costs by allocating telecom expenses, decreasing phone abuse, eliminating toll fraud, and optimizing phone system performance.
